

**Subject: Photography****Qualification: A level****Course overview**

Students will explore a range of photographic media, techniques and processes, and experience both new digital technologies and traditional processes of photography. Students are required to work in more than one area of photography for example, portraiture, landscape (working from the urban, rural or coastal environment), still life, experimental imagery, photographic installation, video and film. Through their development of more sophisticated photography skills, students' appreciation of how feelings and meanings can be conveyed and interpreted in images as well as how images and artefacts relate to social, environment and cultural contexts.

**How is the course assessed?**

Grade A\*-E awarded. Assessment comprises of two units for the A level course that are weighted at 60% for coursework and 40% for the externally assessed units. Units are marked against the four assessment objectives that are internally assessed and externally moderated.

**Where can A level photography take you?**

Completion of this qualification will give between 16 and 56 UCAS points, to gain entry onto a degree course or entry into the workplace. Photography can lead to further study and careers including architecture, design, animation and marketing and publicity.

**Case Study: El Lissitzky 1890–1941.** A teacher for much of his career and ever an innovator, Lissitzky's work spanned the media of graphic design, typography, photography, [photomontage](#), book design, and architectural design. He fostered the idea that art could serve to make the world fresh and strange, art could make us look at the world in new ways.
